

WORLD NUCLEAR  
SYMPOSIUM | 2026

From Ambition to Action

9-11 September 2026, Hilton London Metropole, UK

# 25 Everyday Heroes of Nuclear

Nominate your colleague and celebrate the people who are helping move the industry from ambition to action.

# Celebrating the People at the Centre of our Industry

In 2026, the World Nuclear Association marks its 25th anniversary. For a quarter of a century, the Association has worked at the centre of the global nuclear industry — advancing policy, strengthening collaboration, and championing nuclear energy’s role in delivering clean, reliable power.

Behind this progress are people.

To celebrate this milestone, we are launching **25 Everyday Heroes of Nuclear**. This will be a showcase of 25 individuals from across the global nuclear sector, who work for World Nuclear Association’s member companies, whose dedication, professionalism and sustained contributions have helped move the industry forward.

These are not necessarily CEOs or headline-makers. They might be engineers, analysts, operators, researchers, project managers, communicators, educators and advocates. They may have **shaped** policy, **strengthened** public understanding, **delivered** complex projects, **supported** international collaboration, **improved** safety culture, **mentored** the next generation, or simply ensured that the unsung, day-to-day work gets done that keeps nuclear energy flowing.

They do not need 25 years in the industry. What matters is **impact**.

# What Selected Heroes Will Receive

The 25 selected individuals will be:

- Featured in materials promoting the World Nuclear Symposium 2026 (London, 9-11 September)
- Displayed as part of a dedicated anniversary art installation at the event
- Celebrated across World Nuclear Association digital and social media channels
- Recognised among global industry leaders and stakeholders

Each hero will be represented through a striking, high-resolution black and white half body portrait, which will receive a creative anniversary treatment for exhibition display at the Symposium.

# What We Need From You

If you would like to nominate yourself or a colleague, please submit:

## 1. High-Resolution Half Body Portrait

- Black and white
- Professional quality
- Minimum 300 dpi
- Portrait orientation
- Signed image license and consent form

## 2. Written Profile (Maximum 500 Words)

A concise paragraph outlining:

- What the individual has delivered
- How their work has helped advance the nuclear industry
- The tangible or lasting impact of their contribution
- Why their commitment exemplifies an “everyday hero”

This should focus on outcomes and impact — not a full CV.

## 3. Basic Details

- Name
- Current role and organisation
- Years in the nuclear sector (approximate is fine)
- Country of work
- LinkedIn profile (optional)

# Reference photographs

The photography language for this campaign is “an analogue capture of a person in their workplace.” This means a photo that looks like it was taken in the pre-camera phone era. Think 2012, think no instagram filters, think no auto-blur on the background, think look at the lens.

✓ In workplace

✓ Correct amount of figure in frame

✗ No generic blurred backgrounds

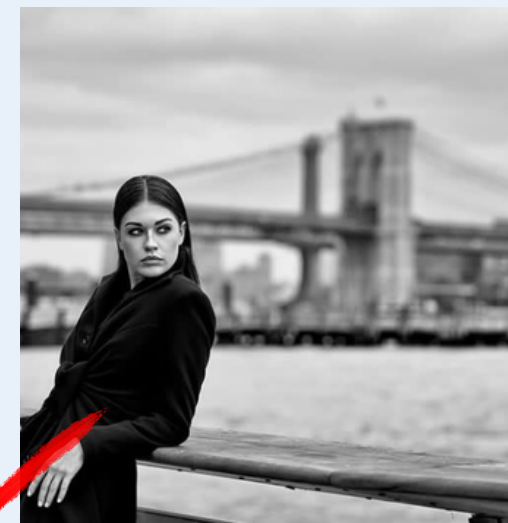

✗ Figure must be looking into camera

✓ Exterior backgrounds if relevant to job

✓ Looking at camera (but in black and white!)

✗ Figure must be central

✗ Not sufficient amount of figure in frame

# Who Should be Nominated?

We are seeking representation across:

- Geographies
- Disciplines (technical, policy, communications, finance, supply chain, operations, innovation, education, etc.)
- Career stages
- Established and emerging nuclear markets

The nuclear sector is diverse — and our 25 heroes should reflect that diversity.

## It's time to Spotlight the People

For 25 years, the industry has advanced technology, policy and global collaboration. Now, we celebrate the individuals whose everyday work has made that progress possible.

Join us in recognising the people who are helping to move the industry from ambition to action.

Please send submissions and any questions to:

ASSOCIATION

# Image License and Consent Form

This form grants permission to World Nuclear Association to use the submitted image(s).

## Copyright Licence

I confirm that I am the copyright owner of the image(s); OR I have authority from the copyright owner to grant this permission.

I grant World Nuclear Association a non-exclusive, royalty-free, worldwide licence to use, reproduce, edit, publish and distribute the image(s) in print and digital formats, including websites, social media, reports, press materials and other promotional or celebratory campaign content. This licence is granted in perpetuity.

## Model Consent

I confirm that all identifiable individuals in the image(s) have given permission for their image and likeness to be used for the purposes described above; OR I am the individual depicted and provide that consent directly. I confirm that all individuals shown are aged 18 or over.

## Data Protection Consent

I understand that the image(s) may constitute personal data. I consent to World Nuclear Association processing and publishing the image(s) and associated personal data for promotional, communications and campaign purposes. I understand that I may withdraw consent in writing, but this will not affect uses already made.

## Declaration

I confirm that the information provided is accurate and that the use of the image(s) as described will not infringe the rights of any third party.
